1.0 GENERAL INFORMATION

1.1 System Overview

The AtEase System is an application that allows students to easily purchase textbooks from second merchants. Through it, students are able to remotely compare textbook prices, acquire quotations and establish communication with the merchants to meet on campus for the actual transactions. The second hand merchants will be able to showcase the books they are selling on the system, while keeping track of their stocks and sales.

1.2 Points of Contact

For additional information, please contact your [AtEase project manager](#)

- Sakhile Cindi – 073 469 4922
- Thato Mashiyana – 076 670 9919
